Dr. Koech Oscar, a lecturer and researcher at the University of Nairobi (UoN), Department of LARMAT, and a researcher at African Dryland Institute for Sustainability (ADIS) at the University of Nairobi and **Mr. Peter Kamande**, from ADIS conducted a community training on pasture production and utilization in Turkana County. The training was carried on **13th June 2018**. The training is supported by Accelerated Value Chain Development (AVCD) Sponsored by USAID Feed the Future initiative. The communities were trained on how to produce pasture as a business, value addition and conservation as strategic feed resources in the drylands.
