

Janeth Chepkemai, Kenya

CLIFF-GRADS Project:

Assessing the soil organic carbon sequestration potential of planted forages in Rwanda and Kenya.

Home University and PhD:

University of Nairobi; Soil science.

Host Institute and Supervisor:

Alliance of Bioversity International – International Centre for Tropical Agriculture (CIAT), Kenya; Sylvia Nyawera.

About me:

I am an individual full of determination and I love using my skills, training and experience to add value to the community. I have always been passionate about sustainable agriculture (organic agriculture) and environmental conservation. This has keyed my interest in climate change issues and what can be done to adapt and mitigate impacts to future generation's livelihoods.

My favourite quote:

“The soil is the great connector of lives, the source and destination of all.”

— Wendell Berry, [*The Unsettling of America: Culture and Agriculture*](#)
