

CAVS TREE PLANTING DAY

20TH NOVEMBER 2020

Beyond the landscape restoration field, benefits of trees also range from improving air quality, to protect biodiversity, tackle climate changes and improve people's health, as well as providing several sources of income: from wood, cuttings to Non Timber Forest Products, such as nuts, fruits or extracts.

Join us on 20th November, 2020 at the College of Agriculture and Veterinary sciences, University of Nairobi as you plant a tree. The UoN staff and students not forgetting the young mind in the neighborhood elementary and secondary schools who are stakeholders in environmental protection and sustainability will grace the event .The events coincides with Worlds Children day, the pupils and students will tap skills to be future environmental ambassadors. Over 2000 trees both indigenous and exotic will be planted

"Until you dig a hole, you plant a tree, you water it and make it survive, and you haven't done a thing. You are just talking."

— Wangari Maathai
