**INVITATION TO TECHNICAL WORKING GROUP (TWG) FOR AFRICA RISK CAPACITY, KENYA
DROUGHT INSURANCE IN KENYA**

Kenya is a member state for Africa Risk Capacity Agency, a Specialized Agency of the African Union (AU) that was established in 2012 to help member states improve their capacities to better plan, prepare and respond effects of extreme weather events and natural disasters, thereby protecting the food security of their vulnerable populations.

NDMA and Africa Risk Capacity have convened the technical working Group (TWG) meeting to review the previous customization triggers, review of the ongoing long rains (LR) for 2021 and operation plan review.

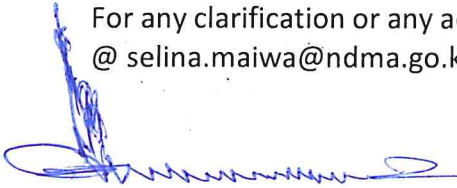

I am therefore writing to invite you to an online meeting between 5th and 7th of May 2021. The purpose of the meeting is to review the following activities;

- Performance of the ongoing season as per the Africa Risk View model.
- Performance of the previous season as per the Africa Risk View model.
- The previous triggers and their performance.

- The previous operation plan.
- Identification of partner roles.

The ARC will co facilitate participant workshop expenses including internet at cost of \$ 40 per person per day. Link will be shared to confirmed participants by 4th of May 2021. Attached is a concept note and agenda for the workshop.

For any clarification or any additional information, don't hesitate to contact Ms. Selina Maiwa @ selina.maiwa@ndma.go.ke or Telephone 0722289267.

JAMES ODUOR
CHIEF EXECUTIVE OFFICER
