

## VALIDATION OF INTEGRATED GRAZING MANAGEMENT PLAN FOR SIX CONSERVANCIES IN AMBOSELI

16 November, 2024

Successful Development and Validation of Integrated Grazing Management Plan for Six Conservancies (*Kilitome, Osupuko, Nailepu, Nalarami, Olepolos and Oltiyani*) under the Amboseli Land Owners Conservancies Association (ALOCA) within the Greater Amboseli Ecosystem in Kajiado County. Integrated Grazing Management Plan is critical for sustainable ecosystem management, it ensures that social, economic and environmental benefits are achieved for enhanced community resilience and improved livelihoods within the Rangelands. I am excited to have done the best plans in a participatory manner with the communities of ALOCA, and we look forward to successful implementation. The training was facilitated by **Dr. Oscar Koech**, Senior Lecture, Department of Land resources management and Agricultural Technology, University of Nairobi Thanks to [WWF-Kenya](#) for supporting the plans development.
